## Who am I?

---

I am a third year student, creative web designer and nail technician with a passion for combining aesthetics and functionality. I specialize in graphic design, web development, and branding, creating visually captivating websites and digital experiences. My expertise includes designing responsive websites, crafting custom illustrations, and developing cohesive brand identities.

## Experience

### Salon Buff

Receptionist & Nail Technician  
Jun 2020 – Present

- Designed and executed custom nail art, utilizing creativity and knowledge of the latest trends in nail design.
- Handled customer feedback and complaints, ensuring that any issues were resolved quickly and effectively.
- Demonstrated proficiency in basic computer programs to manage bookings, client profiles, and salon inventory.

## Projects

### Client First Website

Sept 2024 – Present

- Collaborated with a local business to create their very first website, establishing a digital presence that accurately reflected their brand and services.
- Conducted research on industry trends and competitors' sites to create a unique design that would appeal to the target audience.
- Built the site using WordPress with custom CSS for a personalized look, allowing for easy content management and updates by the client.
- Focused on user experience by designing intuitive navigation, optimizing content layout, and ensuring fast load times.
- Developed key features such as service pages, contact forms, and integrated social media links to support business growth and client engagement.
